**WetFeet : Industries Careers for MBAs, edition: WetFeet Insider Guide** before purchasing it in order to gage whether or not it would be worth my time, and all praised Industries Careers for MBAs, edition: WetFeet Insider Guide:

1 of 1 people found the following review helpful. Helpful read for people considering an MBA By D. James This book is a good resource for people considering an MBA degree. If your already in an MBA program, I would hope that you knew potential career options for post-MBA's BEFORE you started the program. This book does a good job explaining career choices in the context of functional areas and industries. It's a little behind the times on the technology industry but I'm sure many career guides are guilty of this. Bottom line, if you are thinking about earning an MBA, I recommend this book as one of the first you check out. It will help you speak intelligently about potential career options following your MBA which is an absolute requirement for most applications/interviews at the top MBA programs. It's a handy little guide...0 of 0 people found the following review helpful. A bit outdated and not better than googling By Juan D. This guide has some useful information. But it seems you can get the same or more just by googling around. It is a bit outdated, but I was aware of this before buying it. Do not buy this guide. 0 of 0 people found

the following review helpful. Love the bookBy MarcThe book is very informative about how different industries break down. There are a couple of typos and it would be nice to get an updated version, but all in all I can see how the book would be very helpful to someone that wants to learn about the functions of different career paths for MBAs.

Industries Careers for MBAs profiles a host of industries and careers that hire newly minted MBAs. Its the perfect starting point for MBAs ready to research their next career. This WetFeet Insider Guide covers industries and career functions key jobs for MBAs, with current salary ranges and overall job prospects top-ranked companies and common career tracks.
