From Springer : Infectious Disease and Parasites (Encyclopedia of Pathology) before purchasing it in order to gage whether or not it would be worth my time, and all praised Infectious Disease and Parasites (Encyclopedia of Pathology):

This book covers the complete field of the pathology of infectious disease and parasites- from Acquired Immunodeficiency Disease to Zygomycosis. The alphabetically arranged entries, each of which provides a detailed description of a specific pathological disease pattern, allow readers to quickly and easily find the information they need.

From the Back Cover This book covers the complete field of the pathology of infectious disease and parasites- from Acquired Immunodeficiency Disease to Zygomycosis. The alphabetically arranged entries, each of which provides a detailed description of a specific pathological disease pattern, allow readers to quickly and easily find the information they need.

About the Author Professor Paul Hofman received his MD in 1989 and his PhD in 1994. From 1993-1995, he had a postdoctoral position in the department of pathology at the Brigham and Women's Hospital, Harvard Medical School, Boston, USA. From 1996-1997, he worked at the institute for microbiology, Max-Planck-Institute, Tbingen, Germany. Since 2003, Professor Hofman is the head of the laboratory of Clinical and Experimental pathology and head of the Human Biobank Unit, Pasteur Hospital, Nice, France.
