Kevin Desmond, Foreword by Michael Halls : Innovators in Battery Technology: Profiles of 95 Influential Electrochemists before purchasing it in order to gauge whether or not it would be worth my time, and all praised Innovators in Battery Technology: Profiles of 95 Influential Electrochemists:

As the world's demand for electrical energy increases, it will be the ingenuity and skill of brilliant electrochemists that enable us to utilize the planet's mineral reserves responsibly. This biographical dictionary profiles 95 electrochemists

from 19 nations who during the past 270 years have researched and developed ever more efficient batteries and energy cells. Each entry traces the subject's origin, education, discoveries and patents, as well as hobbies and family life. The breakthroughs of early innovators are cataloged and the work of living scientists and technicians is brought up to date. An appendix provides a cross-referenced timeline of innovation.

"Highly recommended" --Choice About the Author Kevin Desmond, a technology historian and biographer, lives near Bordeaux in southern France. Since 1976, his 27 published books and 300+ articles have illuminated the men and women innovators, often forgotten, behind the progress of transport and related subjects.
