I received the globe and was surprised to see how small it is. It's actually 14.2 centimeters, which is a little over five and a half inches. Sending it back for a refund.5 of 5 people found the following review helpful. SmallBy CLanceSo disappointed! It is tiny! The description is false and I had a very disappointed child on Christmas morning :(sending back for refund. I will say, it is really cute. I really wish it was the larger size I was wanting because it is really really nice!1 of 1 people found the following review helpful. Three StarsBy Paul K FranzmannServed it's purpose. Decent product at a reasonable price.

This new White Planet Globe is a non-illuminated globe with political mapping on a white background. The colourful mapping has been precision printed at a scale of 1:90 million. It is perfect for home or school use with a diameter of 5-11/16 in, and a height of 8-1/2 in. It comes on a stylish black base and rotates on one axis.The globe comes in an eye-

catching gift box.
