perfect his Tongan speaking
By Mrs. GI speak fluent Tongan, but got this book to help my husband who is only half Tongan perfect his Tongan speaking. It's an amazing book with tons of lessons!

By oodhamlinguist
This book really helped me to get to know the language of many of the Tongan speakers I know. There is a lot of information, and a lot of exercises. The chapters are very short which helps you take the language piece by piece, that's important if you aren't already familiar with Polynesian language structures. The typesetting gives away the fact that this is an older book, but that's not a problem at all. It is extremely useful for the dedicated Tongan language learner or Polynesian linguist.

By Customer
The presentation is good but in such an old format. It should be revised, reedited and presented in a more attractive or appealing manner. There are missing information I thought whether its meant to be or accidental such as the topic on the use of pea. At this stage i have only reached lesson 65

This text consists of 130 lessons, supplementary materials, conversational materials, Tongan proverbs and songs, specialized word lists, readings and a glossary.
