Would not recommend this book By MissTPurchased this in hopes of brushing up on NCP charting as I was taking an inpatient RD position after a few years of being in an outpatient setting. As usual the academy is unable to take itself less seriously in order to be helpful... I found googling ncp charting and reviewing others' presentations posted online much more straightforward and helpful. Would not

It is helping me in my daily dietetic and nutrition practice and I will recommend it to everyone who want to go into RD practice. 0 of 0 people found the following review helpful. Future RD (hopefully) finds helpful in Medical Nutrition Therapy By BBI have been reading this book to help familiarize myself with correct terminology and ADIME note format. It has greatly helped with medical nutrition therapy.

Name written on outside, but otherwise great condition.
