Declan Hayes : Interview Fundamentals before purchasing it in order to gage whether or not it would be worth my time, and all praised Interview Fundamentals:

0 of 0 people found the following review helpful. I wrote this for studentsBy Declan HayesAnd my students have found it very helpful ever since. That said, there are much better products on the market now for them. That said, how to books are a strange breed. Some people are just good at resumes, interviews and the like and some need all the help imaginable. There are pirated PDF versions of this book circulating; this is not an entirely bad thing as the book's original purpose was to help students, not to make money.
