James Christiansen : Interview Questions: Hack Your Interview To Find A Job Now! before purchasing it in order to gage whether or not it would be worth my time, and all praised Interview Questions: Hack Your Interview To Find A Job Now!:

0 of 0 people found the following review helpful. Great advice for a successful interviewBy AmyIn Hack Your Interview, James Christiansen not only outlines different kinds of interviews, types of interview questions, and how to prepare for an interview, but he also details what sets successful people apart from failures. The part that spoke to me

the most was about how no failure is final; its part of the journey. Another part of the book that was helpful for me was when the author took common interview questions and not only explained their purpose, but how to effectively answer them. Everyone is nervous during job interviews, but reading this book will help you be better prepared to face that stress and interview well. 0 of 0 people found the following review helpful. Great tips and strategies for anyone who's ever nervous in interviews. By Andrew Was nervous about an upcoming interview, but this book helped me face those worries. There was a lot of information that I was able to benefit from. It helped me understand the different types of interviews and frequently asked questions - so I can be prepared for the unexpected. Bonus: This book didn't only talk about the interview process, it also had tips on how to increase your productivity, which surprised me because I didn't expect this, but I'm glad it was in there!
