However, I learned at the end of the interview that it was a fishing expedition. The interviewer started by asking me what employment I had BEFORE my first entry on my resume and then after covering what was on my resume, double backed again to what I did before. I was disappointed since it didn't seem that 18+ years experience in one position was not good enough, but trying to determine how old I was. I would recommend this book-- it's quick and gets to the point. I did get a job in another interview-- face to face and I based my responses entirely on the ones recommended in the book. It set me at ease even though I was nervous! It helped to break the ice when I mentioned I was nervous too... the interviewer quickly became less formal... Thanks much for this...0 of 0 people found the following review helpful.
