National Geographic Maps - Reference : Italy Classic [Tubed] (National Geographic Reference Map) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Italy Classic [Tubed] (National Geographic Reference Map):

0 of 0 people found the following review helpful. OK for smaller classroom By GKPugh OK map for small classroom. Our classroom did not have an Italian map so I got this. Works ok but you have to be close to it, obviously. A bigger map would have been a lot better. Also - for an Italian class, it might be better to get one with the regions identified. I plan to bring it home at the end of the semester and hang it up. It should be more than adequate for that use. 1 of 1

people found the following review helpful. Italy Map- ColorfulBy John CoppolaOf the Italian maps I purchased (3), this is my favorite, and will definitely be hung on my wall, after mounting.1 of 1 people found the following review helpful. exactly what I was seeking, working with a WWII vet to review where he flewBy Nicki McIntyreexactly what I was seeking. I am working with a WWII veteran to review where he flew during his glory days. This map will help us locate the cities and airways where he traveled. We needed something larger than the typical atlas and this exactly fits our needs.

The Classic map of Italy is National Geographic's most detailed wall map of the enchanting and historically rich country. This attractive map features thousands of place names, accurate political boundaries, major infrastructure networks such as roads, canals, aqueducts, ferry routes, airports, and railroads. Italy's diverse terrain is detailed through accurate shaded relief, coastal bathymetry, and symbolism for water features and other land forms including the outlying islands of Corsica, Elba, Isola di Pantelleria, Isola San Domino, Isola di Ustica, Isole Eolie O Lipari, Sardinia and Sicily. Elevations of major peaks are expressed in feet and depth soundings are expressed in fathoms. The signature Classic style map uses a bright, easy to read color palette featuring blue oceans and stunning shaded relief that has been featured on National Geographic wall maps for over 75 years. The map is packaged in a two inch diameter clear plastic tube. The tube has a decorative label showing a thumbnail of the map with dimensions and other pertinent information. Map Scale = 1:1,765,000 Sheet Size = 23.25" x 34.25"

About the AuthorFounded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
