National Geographic Maps - Reference : Japan Classic [Tubed] (National Geographic Reference Map) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Japan Classic [Tubed] (National Geographic Reference Map):

5 of 5 people found the following review helpful. It is a beautiful map and visually easy to study. By birdseyeview My son has it on his wall. He has been asking for me to take him to Japan over the past 6 years. It is a beautiful map and visually easy to study. 0 of 0 people found the following review helpful. Japanese Map. By George56 Very Nice printed detail! Thank you very much! 1 of 1 people found the following review helpful. I really like the size. By ms76 Bought to use as a wall map to mark the locations of our students we host from Japan. I really like the size, not too big, but big enough that you can see all the cities and areas in Japan!

The signature Classic style map of Japan features a bright color palette with blue oceans and the country's terrain detailed in stunning shaded relief that has been a hallmark of National Geographic wall maps for over 75 years. The map includes thousands of place names, accurate boundaries, national parks, and major infrastructure networks such as roads, highways, airports, and railroads. Coastal bathymetry is shown with depth curves and soundings. Inset maps

provide detail of Japans Southern Outer Islands and the Ryukyu Islands. Information about the 2011 Tohoku earthquake and tsunami is included as well. The map is packaged in a two inch diameter clear plastic tube. The tube has a decorative label showing a thumbnail of the map with dimensions and other pertinent information. Map Scale = 1:3,115,000 Sheet Size = 25" x 29"

About the Author Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
