Seigo Nakao : Japanese-English English-Japanese Dictionary (English and Japanese Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Japanese-English English-Japanese Dictionary (English and Japanese Edition):

0 of 0 people found the following review helpful. I love this bookBy CustomerI love this book, I love the cover, I am

very pleased at the content. This book told me that I have reached a higher level of learning. I am at a point where I can read the Kanji, the hiragana and the katakana. It is time to go to Japan and celebrate. Buy this book and study every word until the book tells you stop. Then start over again. Just buy the book.0 of 0 people found the following review helpful. just like it says on the backBy Kenny MOrdered alphabetically, just like it says on the back, no complicated SKIP classification. It's awesome!1 of 1 people found the following review helpful. I feel like Columbus finally a new retreatBy G. ChisholmThen I discovered your books. I feel like Columbus finally a new retreat, a breath of fresh air, a new friend. Your books have a wonderful writing style, not layered with useless facts fiction that add pages to the novel but nothing to the story line. I adore your humor and the interplay of the characters. Thank You for sharing your wonderful talent.

This dictionary is designed for non-native speakers of Japanese, perfect for business people and students. There are over 50,000 entries, including the most common meanings. Japanese terms are shown in romanized Japanese and standard Japanese characters. The romanized entries are listed in alphabetical order, so no knowledge of Japanese is required.

From the PublisherIt was a really helpful tool for me. I don't speak Japanese or any other second language for that matter but didn't want to appear as the "Ugly American" who only speaks English and makes no attempts at the native tongue when abroad. In fact I will now use all of the language dictionaries when taking a vacation, it can't hurt.From the Inside FlapThis dictionary is designed for non-native speakers of Japanese, perfect for business people and students. There are over 50,000 entries, including the most common meanings. Japanese terms are shown in romanized Japanese and standard Japanese characters. The romanized entries are listed in alphabetical order, so no knowledge of Japanese is required.About the AuthorSeigo Nakao is the head of Japanese Studies at Oakland University in Rochester, Michigan.
