Peter Constantine : Japanese Slang: Uncensored before purchasing it in order to gage whether or not it would be worth my time, and all praised Japanese Slang: Uncensored:

6 of 7 people found the following review helpful. Interesting, but I will not buy this book.By Ryouma SakamotoI am a Japanese. This book is interesting, but many of slang written in this book are out of date. Most of those slang was used by oldfashioned yakuza or criminals in 20th century. Most of ordinary people in Japan don't speak like that. If you go to Japan, then talk to Japanese like this, people will be astonished, then they will recommend you not to use those words "for your own good".Okashina nihongo wo oboetemo shikata arimasen. Watashi ha minasan ni tadashii nihongo wo oboete hoshii desu. Onegaishimasu!!!2 of 3 people found the following review helpful. A Good Effort, But What Would You Do With It?By customerThe content seems interesting enough, but I am never sure what to do with books like Japanese Slang: Uncensored. There were some words I recognized, and many others that were new to me. It was fun to read. Personally, though, I don't plan on sprinkling any of these into my daily speech.My feeling is that this book would appeal to yakuza movie fans, those who want to hang out in the seedier sections of town, and students of Japanese who want to upset their instructors :) A book like this might be worth five stars to anyone falling into these categories!He puts his terms into narrative form, which is far better than a mere list of words. I was unconvinced by many the folk etymologies, but they made for good reading nonetheless.2 of 17 people found the following review helpful. I don't get it.By G. BrownPeter Constantine never went to Japan a day in his life until 2005. Please explain how he can be an expert on Japanese slang or ANYTHING Japanese.
