**National Geographic Maps - Trails Illustrated : Jasper North [Jasper National Park] (National Geographic Trails Illustrated Map)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Jasper North [Jasper National Park] (National Geographic Trails Illustrated Map):

0 of 0 people found the following review helpful. Best In Show! By Jesse Francis These maps are the best-in-show for trail maps. They are durable and include plenty of detail. If you like to know you've got a good map with you when you go to Jasper, take this one (but make sure you get Jasper South as well) 0 of 0 people found the following review helpful. Great for a road trip! By Duluth MN Girl This was very helpful on my road trip! Very descriptive. 0 of 0 people found the following review helpful. Five Stars By Way Jeff Excellent quality map.

Waterproof Tear-Resistant Topographic Map The largest park in the Canadian Rockies, Jasper National Park is a UNESCO World Heritage Site with breathtaking mountain scenery and bountiful recreational opportunities. Expertly researched and created in cooperation with Parks Canada and others, National Geographic's Trails Illustrated map of Jasper North delivers unparalleled detail of the park from the town of Jasper in the south to its northern boundary. Coverage includes many popular points of interest such as Miette Hot Springs, Maligne Canyon, Pyramid Lake and Mountain, Calumet Glaciers, Celestine Lake and Snake Indian River, as well as the town of Jasper. Also covered are adjacent areas of Rock Lake Solomon Creek Wildland Park, Mount Robson Provincial Park and Willmore Wilderness Park. Explore the area by following the map to trailheads and then along mapped trails, labeled with distance markers and color-coded according to designated usage, whether hiking, biking or horseback riding. The area's very sparse road network is displayed, including the Yellowhead Highway shown with scenic pullouts and roadside facilities. To aid in your navigation the map shows glaciers and icefields, contour lines and elevations, labeled peaks, summits and passes, water features, rock debris and areas of wooded cover. Some of the recreation features pinpointed are campgrounds and primitive camps, backcountry lodging and cabins, river access and boat launch points, horse stables and corrals, cross-country ski areas, interpretive trails and scenic viewpoints. Every Trails Illustrated map is printed on "Backcountry Tough" waterproof, tear-resistant paper. A full UTM grid is printed on the map to aid with GPS navigation. Other features found on this map include: Calumet Glaciers, Celestine Lake, Jasper, Jasper National Park, Maligne Canyon, Miette Hot Springs, Pyramid Lake, Pyramid Mountain, Snake Indian River. Map Scale = 1:100,000 Sheet Size = 37.75" x 25.5" Folded Size = 4.25" x 9.25"

About the Author Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
