By George Would you knowingly overpay for a new car? A stereo? A suit? A house? Of course not...read this book and you could make thousands more in your next job. Those few minutes that you negotiate your new salary could cost you thousands. People who bargain like mad to save \$25 on a new car easily throw away thousands on the salary negotiation. Buy this book and your next car could be a Jaguar (I now drive a Buick but I am an old guy!).
