**Joo Antnio Sousa : Jobs, Time and Money** before purchasing it in order to gage whether or not it would be worth my time, and all praised Jobs, Time and Money:

1 of 1 people found the following review helpful. A must readBy GarvinThe title for this book really caught my attention. In the intro the author refers to people like myself, in my mid 30's not happy in my current job because of my indecisiveness about which course of action to take. I'm really interested in the offshore sector but because of my family life I have to rule that one out, at least for now. This book was well put together and informative, not only that but the personal stories along with job description made this book all the more enjoyable to read. It really made me

look into myself and reevaluate my options. I think this should be mandatory reading before Leaving high school as I think it will be of great benefit to the young and even some old heads such as myself. Great job. I will be highly recommending this book. 1 of 1 people found the following review helpful. This book has helpful information that comes from a realistic point of view. By Eric This book was quite interesting and fun to read, it expanded my knowledge on different jobs and the types of jobs that exist. Through my life I have had quite a few jobs, some that acted as a step up the ladder and others that exist solely to make ends meet. I have also made it a priority to keep enough time for myself, allowing time to go do the things I love most. The author presented quite a range of jobs that provided insight on what level of commitment/pay was involved. I was even able to read about a few jobs that I have held in the past. If you are in the position of looking for a change in life or unsure of what you'd like to do, this book is certainly for you. Thank you for the creative read that was unique and provided great information. 0 of 0 people found the following review helpful. Interesting and VERY Unique By Big Jay I bought this book as a hard worker, I don't normally get vacations in my job. One thing that sold me on this book was it promised to be different. The book Joo wrote is completely different from anything I have read. The jobs in the book are not the typical jobs you read about in career books. I won't get into which jobs are in here, but I will say it's far more than the typical "this is what you get paid, here is why it's cool". The author, Joo takes it a step further and shows the research he put into the book. You will find educational needs, typical industry perks, and other things that are in most books. Where the author takes it a step further is when he describes what you can expect to see in your day to day employment. He also adds a plethora of history behind the jobs, personal accounts, and stories of individuals who did the work. If you are looking for a career change I highly recommend grabbing this book first in your search for jobs!

Choose or Change your Career, Travel the World Joo Sousa has traveled all over the world due to his profession as a Merchant Marine Officer. During his extensive travels, he met many successful people from different cultures and backgrounds. In this book, Joo Sousa explores more than 20 professions in demand, that are well paid, where you can have lots of free time and how you can get them. Jobs, Time and Money arose from the author's own personal struggle to find a profession that could give him a high salary and allow him to continue to do everything that he loved. There aren't many people who can do something they love and at the same time make a good wage, but the author was able to achieve success at this. He now has 6 months vacation per year--and you can have long vacations too while earning a great living! This book is for anyone and everyone seeking opportunities: the young person who questions what to do in life, the unemployed who don't know which professions still have demand, or even for someone who wants to make a career change. Choosing a career is perhaps the most difficult thing anyone ever has to do. Whatever your choices today, it will have an effect on what will happen tomorrow. More than anything else, it's our decisions, not the conditions of our lives, that determine our destiny. Choose or change your career, travel the world!

About the Author Joo Antonio Sousa was born in Lisbon in 1986. Has a Degree in Sport Sciences in the Faculdade de Motricidade Humana (University of Lisbon) and in Marine Pilotage in the Escola Superior Nautica Infante D. Henrique (Nautical College Infante D. Henrique). Merchant Navy Officer since 2012. He has passed through several countries where he contacted with thousands of different people. Surfer in his free time and sportsman every day. This project arose from the difficulty of finding a profession that he could relate, with economic stability and free time.
