It teaches you how to cope with pregnancy form the beginning all the way up to your child is a toddler. I would recommend this book to first timer moms. It gives you the whole run down from conception all the way till your child is in pre k0 of 0 people found the following review helpful. Best Mother/Baby book on the marketBy A young GrandmaI am a grandmother of two with number 3 on its way !!!!My oldest grandson is almost 3 and we are still using this book for himMy daughter lives out of state and we tend to both get our books out to look up information.Just bought book number 4 for my niece who is pregnant and she loves following along with her pregnancy and the book is full of helpful information for pregnant women.As far as the 4 of us women who use this book as a family we are all very pleased with it and think its the best on the market.A young Grandma0 of 0 people found the following review helpful. Excellent Book!!!!!!By F. CoffeeThis is the only book I used throughout my entire

pregnancy. It has great information and illustrations. I am now the mother of a 1 month old and I still use the book. I highly recommend this book to those mothers who crave knowledge like I do. This book answered a lot of my questions from the first trimester to delivery and to caring for my baby when I bought him home. This is a must have for mothers-to-be!!!

Beautifully illustrated and designed to impart the most up to date information and advice from preconception through the first three years of life, Johnson's Mother and Baby takes into account the most essential aspects of a baby's physical and mental development, health well-being, and daily care. With strong visuals, reassuring text, and clear, step-by-step instruction that are ideal for busy new parents, the feeling of confidence and security that Johnson Johnson inspires is evident on every page.
