National Geographic Maps - Trails Illustrated : Joshua Tree National Park (National Geographic Trails Illustrated Map) before purchasing it in order to gage whether or not it would be worth my time, and all praised Joshua Tree National Park (National Geographic Trails Illustrated Map):

0 of 0 people found the following review helpful. Good All Purpose MapBy MNDocJust having returned from Joshua Tree National Park, I found this map a generally good all purpose map for roads and major points of interest. Clearly better than a schematic map online (while the park may say they have some maps or brochures, none were available at the trail heads). This map does not have all of the turnouts or points of interest. You can't use this for navigating with map and compass in the back country; the scale is too big. Do you absolutely have to have this map to visit the park? No. Is it really helpful? Yes.0 of 0 people found the following review helpful. Excellent referenceBy GRSLove NGM maps as they are so detailed and helpful for hiking, etc. Purchase them for all the planned vacations as they are full of information and correspond nicely with hiking books and hiking programs like All Trails.1 of 1 people found the following review helpful. Three StarsBy M. SteinbergWhile it is a well made map,and large, it doesn't work well for use within the Park.

Waterproof Tear-Resistant Topographic MapThe two distinct ecosystems of the Colorado Desert and the Mojave Desert meet in southeastern California in the Joshua Tree National Park. National Geographics Trails Illustrated map of the park delivers unmatched detail and valuable information to assist you in your exploration of this fascinating land of surreal geologic features shaped by strong winds, unpredictable torrents of rain, and climatic extremes. Created in partnership with local land management agencies, this expertly researched map features key areas of interest including Black Rock Canyon, Lost Horse Valley, Indian Cove, Cottonwood, Chuckwalla Valley, and the Pinto Mountains.With miles of clearly marked trails that include mileages between intersections, this map will prove invaluable in your exploration of the park. The map base includes contour lines and elevations for summits and passes. Interesting information about the park, regulations, and safety tips are included as well. Recreation features are clearly marked, including interpretive trails, campgrounds, picnic areas, points of interest, horse camps, and more.Every Trails Illustrated map is printed on "Backcountry Tough" waterproof, tear-resistant paper. A full UTM grid is printed on the map to aid with GPS navigation.Other features found on this map include: Cadiz Valley, Cathedral City, Coachella Valley, Coxcomb Mountains, Eagle Mountains, Hayfield Lake, Indio, Joshua Tree National Park, Little San Bernardino Mountains, Palm Desert, Rancho Mirage, Twentynine Palms, Yucca Valley.Map Scale = 1:80,000Sheet Size = 37.75" x 25.5"Folded Size = 4.25" x 9.25"

About the AuthorFounded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking.Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
