JOY OF IMPROV: AN AMAZING JOY By Brainerd Phillipson A brilliant step-by-step process to develop the ability to improvise over various chord progressions. This is an amazing book for anyone who loves music and wishes to develop his or her techniques and improvisational abilities. 3 of 3 people found the following review helpful. Nice Jazz lesson tunes. By BoogieBeau Good tracks and information and sheet music and songs to play. Just think it might be a bit too much like book one which I like also. 1 of 1 people found

the following review helpful. Great!By Christine L.My parents got my husband this for Christmas and he loves it! He had just about finished the first book and indicated that he'd really like Book 2. He's been practicing it ever since. :)

(Piano). Lessons 27 through 52 further explore more advanced chord voicings, chord arranging techniques and more challenging blues and melodic lines. The accompanying audio (accessed online) is used in conjunction with the text and music as a listening and play-along tool.
