Funny how as much as things change most stay the same.0 of 0 people found the following review helpful. this is my second bookBy CustomerI let a friend have my last one, and they kept it. I had to get another one.I would recommend the book to anyone.1 of 3 people found the following review helpful. half a referenceBy John Gregory HancockThe book just lists slang terms alphabetically, instead of meanings alphabetically, so, for example, if you wanted to know what the slang term would be for a really good drummer, you can't. If you heard the slang term FIRST, you could look up its meaning. So, as a reference, Its about half of what you want if you're doing research. Since I was writing a short story and wanted to get the correct slang term, it was of no use to me.
