Perfect. By Customer A great book for anyone with a sense of humor. It's awesome to pick up a city or two with friends, laugh and let it spark conversation. Well done and while offensive, it doesn't hit one group harder than others - instead, it offends everyone, which is easier to respect. Fun book. I'm buying a bunch for holiday gifts!

Your City. Judged A sharp tongued and fierce witted full-color collection of maps of Americas greatest cities in all their brutally honest glory. When you move to a new city you look at a map to get you where you need to be, but a Google Map of San Francisco wont tell you where you can get Real Dim Sum or where The Worst Trader Joes Ever is. Or if youre visiting Chicago, you might want to see the Magnificent Mile, but not know its right next to where Suburbanites Buy Drugs and Retired Mafioso. This is where Judgmental Maps comes in a no holds barred look at city life that is at once a love letter and hate mail from the very people who live there. What started as a joke between comedian Trent Gillaspie and his friends in Denver, quickly grew into a viral sensation with a rabid and enthusiastic community labeling maps of their cities with names and descriptions we all think of, but are a bit too shy to say out loud. Collected here in a full color, beautifully packaged book with all new, never before published material, Judgmental Maps is laugh out loud funny from New York to Los Angeles, Minneapolis to Atlanta and offending everyone else in between.

"Our country's divisive election just got meaner. And funnier. A new book, Judgmental Maps treats every state as fair game. Trent Gillaspie's 'truth atlas' is here to tell us where the 'hipster wannabes' and 'Lululemon MILFs' live, all across the USA."--Entertainment Weekly "If you're hypercritical, condescending, and snarky, you really need these maps." --LA Weekly "Judgmental Maps are sure to offend just about everyone - and make them laugh their heads off at the same time." --Bustle.com "Stereotypes from sea to shining sea. Laugh at other cities and neighborhoods. Cry over your own." -- Jeff Greenspan, Freelance Creative Director and former Chief Creative Officer at BuzzFeed
