The Road Map We've been Missing!By Don Miskell have but one protest when it comes to Ms. Farrington's book: THAT IT WASN'T AVAILABLE WHEN I WAS WRITING MY FIRST NOVEL!!!Fact: it is much easier to find your way from Point A to Point B with a detailed MAP! This book points the way, while identifying the road hazards, wrong turns, and detours. It is a must-read for those of us who claim to want to accomplish writing our 1st, 2nd, or 20th book and want to make that task the priority.I've run into many people who marvel at the fact that writing and publishing a book seem easy but don't know how to take steps to actually do so. Ms. Farrington's volume will put grease to their gears and get the aspiring wordsmith pecking on those seemingly daunting keys. Written in such a way to be as fun as it is informational, the first-time (or seasoned) author will be scheduling churning his or her book in no time!0 of 0 people found the following review helpful. First bookBy Slim2378I found this book really easy to follow. I like the WRITE method she outlined in the book which really broke down writing nonfiction for me. I'm still nervous about writing my first book. But this book is definitely a huge step in the right direction for me.
