Kaplan : Kaplan GMAT, 2007 Edition: Comprehensive Program before purchasing it in order to gauge whether or not it would be worth my time, and all praised Kaplan GMAT, 2007 Edition: Comprehensive Program:

2 of 2 people found the following review helpful. Not too goodBy Roman MThis book does give some useful techniques for preparing for the GMAT but be aware that the questions on the actual GMAT test are a lot harder than the ones in the book or the ones on their test online. I thought the verbal part was pretty similar to the questions in the book, but the quantitative part was quite different. I recommend getting an additional book on the math part of the GMAT.

Includes: *Focused review for the fundamental content on the test *Score-raising strategies *An online study plan to help guide students chapter-by-chapter *Email communication at key points during the program, providing extra tips and guidance, as well as motivation to keep improving *A progress report, so students can keep track of and analyze

their performance as they make their way through the program*Additional practice and review online to reinforce basic concepts and strategies*1 full-length practice tests with detailed answer explanations
