Kaplan : Kaplan GMAT 2011: Strategies, Practice, and Review before purchasing it in order to gage whether or not it would be worth my time, and all praised Kaplan GMAT 2011: Strategies, Practice, and Review:

6 of 6 people found the following review helpful. Stripped down version of Kaplan Premier - missing the best parts
By GMAT Club (Expert)Kaplan GMAT 2011: Strategies, Practitce, and Review VS. Kaplan GMAT 2011 Premier
This book is actually a stripped down version of Kaplan Premier and in my view is a losing choice:- Missing 4 tests (it has 1 paper test and 1 online vs 1 paper and 5 online)- Missing the Math Review section (Kaplan Premier has a neat Math Refresher section)- Missing all of the expert tips and points (which are actually quite valuable, as I realized when they were taken away) - see one of the images I uploaded - these are small call outs on the margins, which usually provide interesting tid bits of information and often very helpful ones in the explanations section
The only positive aspect I can find is the Price: \$16.55 vs \$26.39 (but the missing parts are so worth the extra \$10).

review helpful. Five StarsBy CustomerGreat book3 of 3 people found the following review helpful. Something you really need...By Kindle Customer AbbyIf you are going to take this test, then this is the book that will help you prepare for it. It tells you what identification you need to take with you, what you can't bring with you to the test area like timewatches and calculators and other things, what you need to bring with you besides your id and how to behave in the test area. There are 512 pages of this book and it covers tests and practices quizzes for you to review by and in back there is a card pocket where you can access more quizzes by going online and registering the serial number of book. Book also tells you how the GMAT's are scored and how it's best not to dwell on one question too long but to move along. It covers reading comprehension, reasoning, problem solving, etc. A really good book and essential I would think if you want a good grade.
