Kaplan : Kaplan GMAT 2014 Strategies, Practice, and Review with 2 Practice Tests: book + online before purchasing it in order to gauge whether or not it would be worth my time, and all praised Kaplan GMAT 2014 Strategies, Practice, and Review with 2 Practice Tests: book + online:

4 of 4 people found the following review helpful. Don't bother - get the GMAT Premier with 4 more TestsBy GMAT Club (Expert)When comparing this book with Kaplan GMAT Premier, these two are very similar except the Strategies, Practice, and Review is a weaker offering for a few bucks less, and those savings are not worth it in my mind. Here is what's different/missing:- Missing 4 tests (it has 1 paper test and 1 online vs 1 paper and 5 online)- Missing the 90% of the quant review section- In general has no information that Kaplan premier does not have - matches it identically (both have lost neat expert tips unfortunately)The only positive aspect I can find is the Price but

it is not worth saving \$10. I would recommend that you go for the Kaplan Premier with the CD (you don't actually need the CD, but that's the book that has 6 tests, which all of them are online; the CD has only videos) instead or if you are looking for a 700+ score, grab the Kaplan Verbal and Kaplan Math workbooks as well. This book can only get you to about 650 alone. Alternatively you can go all-in and get the MGMAT 8-book set or the Veritas Prep 10-book set. If you are looking for some good study plans/books - see my other reviews. Good Luck! BB, GMAT 750 Founder of GMAT Club. P.S. I reply to comments! 3 of 3 people found the following review helpful. Knowledge is Good By OnAccountGot the Kindle edition. I wish the answers to the first practice set included the original question (as they do in the later chapters and practice questions) because flipping back and forth on the Kindle is a pain. I focused almost exclusively on the Math prep section and felt it got me up to speed on the concepts and shortcut tricks. The real challenge to the actual GMAT math section is that you need to beat the band to get thru all the questions in the allotted time. So when doing the practice tests, keep track of your pace, because you will have to "catch up" by making some educated guesses. Since the real test is an adaptive test (the next question is harder/easier based on your prior right/wrong answers) it can be easy to fall behind. 1 of 1 people found the following review helpful. Summary Book By AdeI bought this book along with 2014 Kaplan Premiere because I thought it would be a good supplement but I was wrong. This is basically a high level summary of the information in the Kaplan Premiere book so if you are getting that one there's no need to purchase this one.

Kaplan GMAT 2014 Strategies, Practice, and Review with 2 Practice Tests, a streamlined alternative to Kaplan's Premier title, covers all the essentials of the GMAT, including the new Integrated Reasoning section. This book features: * 2 practice tests (1 in the book and 1 CAT test online) * Proven test-taking strategies and complete explanations * Hundreds of additional practice questions * Integrated Reasoning strategies and practice questions For streamlined GMAT practice, Kaplan's GMAT 2014 Strategies, Practice, and Review with 2 Practice Tests is the definitive resource. Also available: GMAT Premier 2014 with 6 Practice Tests: book + online + DVD + mobile.

About the Author Celebrating 75+ years as the world leader in the test prep industry, Kaplan Test Prep (www.kaptest.com) is a premier provider of educational and career services for individuals, schools and businesses.
