**Kaplan : Kaplan GMAT 2015 Strategies, Practice, and Review with 2 Practice Tests: Book + Online (Kaplan Test Prep)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Kaplan GMAT 2015 Strategies, Practice, and Review with 2 Practice Tests: Book + Online (Kaplan Test Prep):

2 of 2 people found the following review helpful. A Full Program By Joseph Tambornino A solid strategic guide to the GMAT, with lots of content review, effective methods, and solid strategies. This is a lighter version of Kaplan's full GMAT coursebook, but is perfect if you're already well on your way with the material, and want to get a full understanding of the test design. You get a lot more than just the book. This is a full program. In addition to the state-of-the-art practice tests, you get tons of online resources to go along with the book purchase, making this text a solid bargain. The explanations for every single practice problem you encounter are "worth the price of admission." I have

taught over 4500 students to prepare for the GMAT and am very proud to have worked for Kaplan the last three years. It has been my great pleasure to see students of mine accepted into every one of the top business schools in the world. In order to give those students what they need, I have to be on top of whatever is out there in the test prep world, and I can unequivocally recommend Kaplan's books as the gold standard of the industry. 0 of 0 people found the following review helpful.
