By AMoo These cards will not come close to replacing stronger study material (Kaplan books, etc.) but for quick study breaks while waiting for the train, in the elevator, other places of temporary visitation (bathroom?) these cards are very helpful, It will get you familiar with key GMAT topics that should be covered in greater depth using other materials.

By MonsterBuyer At first glance I thought it was useless but after going thru em, I found em to be quiet explanatory and informative about GMAT and the stuff that it covers. This is by no means detailed knowledge or covers any topics in details. Its just for quick review of materials that you should or are covering in the GMAT book course. I read a couple of cards like 25 a day or 10 cards of before sleeping and by the end of 3 weeks I was familiar with almost all the cards. Then I put it away and a week before Test Day, I got em out again and boy was I happy to see em again. It refreshed concepts or ideas I covered in beginning of GMAT course. HOWEVER, DO NOT RELY ON THIS ONLY FOR PREPARATION. AS I SAID ITS ONLY GOOD FOR REVIEW!!!!!!

By GMAT Club (Expert) The part I like about these flashcards is that they test theory/rules/principles and strategies. There is a fair share of questions but most of them are interesting enough to wrap your mind around such as $3^0 = ?$ Sometimes there are tricky questions and sometimes useless ones such as True/False questions. I would rate this product as a medium level. Those who are new to the GMAT would benefit the most. All material seems to come straight from the Kaplan books, though some questions are structured very well to poke holes in my knowledge. One should be able to improve 20-30 points by going through these just by refreshing and getting quizzed on material. The

verbal portion of the flashcards is heavily focused on grammar/argument rules and strategies. There is also about 50 or so SC questions that ask to identify the error, which are kind of neat. They are small enough (see my images in the customer images section) to carry in a wallet. There is no system to organize them such as a binder ring or a holder, so you will need to figure out how to carry them. Also the paper is pretty flimsy and they won't last long. If you get any of them wet, you can forget about it. I am giving it 4 stars for content and taking one off for flimsiness and easy questions. I like these better than the Barron's flashcards which are Questions only though on the other hand, are of a higher paper quality and fit much more text. Leave a comment if you have any questions about these flashcards - I reply fast. BB, GMAT 750 Founder of GMAT Club
