**Kaplan : KAPLAN/NEWSWEEK GRADUATE SCHOOL ADMISSIONS ADVISER 2000** before purchasing it in order to gauge whether or not it would be worth my time, and all praised KAPLAN/NEWSWEEK GRADUATE SCHOOL ADMISSIONS ADVISER 2000:

6 of 6 people found the following review helpful. An Adequate Introduction but Lacks Depth By A Customer I was really dissatisfied in this book. Kaplan provided its usual engaging and well-organized style to the book; however, the book really lacked the information I was wanting. Most of the information covered in the book is pretty basic for anyone who has entered an undergraduate college in the past 7 years. The example personal statements are awful. The critiques of the essays are shortsighted and overlook rather large errors. The book is commendable though on how it provides specific chapters for certain professions (ie. social work) and students with special needs. Nonetheless, the book did not even mention my area of interest (religious studies). If you're entering graduate school after a long break

from undergraduate study, the book provides an adequate introduction to graduate school. The remainder of us should look for a book with greater detail.
