From Alfred : Keyboard Picture Chord Encyclopedia before purchasing it in order to gage whether or not it would be worth my time, and all praised Keyboard Picture Chord Encyclopedia:

0 of 0 people found the following review helpful. Chords, chords, and more chords!By Jeffrey R. Kuntzelman 2017I love this chord dictionary. I particularly liked how each chord is detailed in all forms (root, 1st inversion, 2nd inversion, etc) with a picture showing how the hands are positioned on the keyboard or piano.Excellent all around. Still important to learn scales, but this is an extremely detailed shortcut.0 of 0 people found the following review

helpful. Five StarsBy cat9Got here very quickly. As described.0 of 0 people found the following review helpful. Five StarsBy GittiVery helpful

This comprehensive collection of over 1,700 chords features crystal-clear photographs, detailed keyboard illustrations, and standard music notation in bass and treble clefs. Chord fingerings are shown along with scale degrees and note names, and chords are listed alphabetically for easy reference. Concepts like chord construction, intervals, inversions, altered chords, and music theory are explained in simple language to give you a complete understanding of what you are playing. With every chord a keyboardist could ever need, you'll never have to buy another reference book again!
