National Geographic Maps - Reference : Kids Beginners USA Education: Grades K-3 [Laminated] (National Geographic Reference Map) before purchasing it in order to gage whether or not it would be worth my time, and all praised Kids Beginners USA Education: Grades K-3 [Laminated] (National Geographic Reference Map):

10 of 10 people found the following review helpful. It is a great starter map for young children as it is not ...By J. AnthonyI purchased this map for four year old twin nephews. It was hung in their playroom. It is a great starter map for young children as it is not complex (shows states) and they are already able to locate places. Very sturdy and excellent size!2 of 2 people found the following review helpful. but I love it. My 9 year old grandson whom lives ...By P. AndersonLOL, I thought this was much smaller when I ordered it, but I love it. My 9 year old grandson whom lives with me needs to memorize all of the states in the US, and their capitals, this school year. We have it tacked up on his bedroom wall. It's great for studying purposes!2 of 2 people found the following review helpful. Primary aged kids love!By TamarackDaily "nose to the map" for all sorts of reasons. Primary aged kids love!

Beginners USA Education map of the United States for grades K-3. National Geographic's graded-series of maps are the first to address the unique needs of K-12 students as they advance their understanding of our World. Unlike other classroom poster maps, the world maps use the Winkel-Triple projection, which provides the best combination of size, shape, and distance giving the student the best visual representation of the Earth's surface in two dimensions. This solves the effect seen on other maps where Greenland appears larger than South America. Our Beginner Series, grades K-3, contains an easy to read maps of the World and United States. Map Scale = 1:4,898,000 Sheet Size = 51" x 40"

About the Author Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
