Kindle ME: the ultimate book about how to use 's KindleBy sherlockholmesguyThis is undoubtedly an excellent book to purchase for anyone who gets a Kindle for the first time. Some of the sections apply to the more advanced Kindles, but many of the features apply to all six of the models. The book is in four sections: 1)History of ebooks(you can easily skip this section, although it was fairly interesting), 2)To Know thy Kindle, gives a lot of detail on how to more fully use all the features of the Kindle. For example, you can find out the page number of book you are reading by just pushing the Menu button and the page number appears at the bottom of the screen. 3)Free ebooks which is worth the price just to find more than a dozen sources for free ebooks that are available, and how to utilize those sources. And 4) Things no one will tell you about Kindle 4. For example, MP3 playing or Personal Notetaker. If you give a Kindle to someone, suggest that one of the first books that they get be this one. It will be well worth the purchase price, and help the person get used to the device much easier. 5 stars!5 of 6 people found the following review helpful. I recommend this bookBy R SullivanIt is very hard to give a review for a book about a product as eBook reader. The only thing you can judge such a book, is by did it match your need and your expectation, did it enrich your usage for that product. And in the case of ` Kindle Me ` book, I can say yes. I have Kindle keyboard. Part three of the book; or as the author named it book three; is great. It gave the information I need to get access to millions of free eBooks; I can read with my Kindle for free! . I enjoyed part four of the book too; it gave access to the best web sites about Kindle. I liked that I could get access to all those web sites direct from my Kindle anytime I want. Yes, I recommend this book.0 of 0 people found the following review helpful. It's just okBy Andrea ClaireHaven't really figured it out yet. I will keep trying. I new at all this electronic stuff and could probably use more help than just a book.
