It should be gold plated.By A CustomerIf I could give this book a higher rating I would!The best job guide that I have ever read.I purchased Knock `Em Dead 1992 by chance. Desperate for a guide that was actually going to help. This is, without a doubt the best book I have ever purchased. This book is responsible for the success of myself and my friends. We fondly refer to it as "The Red Book" (as the issue I purchased had a red cover). I can honestly say that this book is the catalyst for the process that has given me the vast majority of my current salary. It guided me through the entire job seeking process and made the task a simple one. After reading this book the job interviews I attended were simple. At first I thought that the interviewers had read the book because they kept asking me questions from the book (word for word) and, because I had read this book I had the model answer for all of them. Nothing could trip me up. After a few interviews it became very clear that the interviewers had not read this book but the book had essentially "read the interviewers" and supplied the basis for answers to all questions. It would be unfair to mention just the interview section of the book as it provides a full guide from the beginning of the process (leaving) to the end (signing the gold plated contract). I would not like to think about where I would be in my career now if I had not found this book. I am sure that I would be better off than I was at the time of purchase but nowhere near the level that I now enjoy. Martin

Yate is a genius, I doubt there has ever been nor will be a book that could outshine this work of art. I have ordered the latest copy of this book and eagerly await its arrival. If you know what's good for you - BUY THIS BOOK NOW 0 of 0 people found the following review helpful. Bang for your bucks By archer@swlink.net Bravo !!! This book got me a job almost right away. The book clearly cut the crab out and points out directly to the important objectives. The book will also prepared you to all questions that are crucial to be hire. Everyone who seeks a job need to read this book, if you want to be hired. Study the book carefully and most important, excersize and try to imagine what questions that are most likely going to be ask. My personal opinion; it is YOU who is in control in the interview instead of the other person. 0 of 0 people found the following review helpful. Great resource book for those looking for a JOBBY torchTD@adelphia.net After using this book as a reference and recomending it to many others; I now have the need to use it while looking for a new position. After rereading it for the 4th time I again found new and useful information that I should be aware of during the job hunting/interviewing process. If anyone is currently looking for a job, or is tentative in their job - get this book today. It is easy to read and give a great many down to earth tips.

's handbook provides 200 great answers to tough interview questions, advice on getting interviews, tips on handling negotiations, references, and drug and psychological tests, and more.
