Its a lot of information to digest especially if you are new to the job culture in the west. I found this book to be very helpful in many ways:1. It not only shows how to do the resume- it explains WHY I should do it a particular way2. It shows what the other side of the picture is- the recruiters and the software they use3. It works with each segment of the resume4. It is motivating while telling me how to be in the Sellers marketI would recommend this book to everyone! It is motivating. It is informational.
