Not worth itBy brianI didn't find this book very helpful, and found some of it to be contrary to what I've read elsewhere, for example, the emphasis on cliché soft skills. The second half (literally over half) of the book is just example resumes in random order. I found the book "Resume Magic" to be much better.0 of 0 people found the following review helpful. Great for a resume revamp!By MJRGreat tips here that really helped me revamp my resume. Some of the advice sounds good, but might not be practical, like the "business card" resume. That said, there's a lot of good advice in here, and a number of resume examples toward the back.3 of 3 people found the following review helpful. great advice, great resultsBy o.w.I bought this book 8 months after I started looking for a job with my old resume. I read the book, follow the advice, and I received a phone call from a

company! During my interview, I was complimented for my resume as well! Both the format and the content was exactly how it's supposed to be! I recommend this book very highly.
