My friend purchased this dictionary and after taking a look at it, was very happy with the amount of words. It's easy to look up and like the fact that it's used with Hiragana, Katakana or Kanji instead of Romaji. I also like how it also has an example of how the word is used in a sentence.0 of 0 people found the following review helpful. Great BookBy Cynthia L FryMust have for beginning learners!2 of 2 people found the following review helpful. For Japanese studentsBy Omri MatityahuI'm studying Japanese and I needed a good dictionary. My teacher recommended this one and it is very good.Especially because I

can see not only the meaning of the word in English but also the meaning of a Kanji in Hiragana.
