things I learned when I bought this book¹. You can get this book in pdf format for free.⁹⁹ on the website². If you ask customer service where the mp3 audio is, you will spend hours going in circles³. The mp3 audio is on the website.⁴ Just go to the website.¹²⁶ of 133 people found the following review helpful. Wow
By Jacob
This book is single highhandedly the best introductory resource to Korean that I've seen so far... and I have tons of books. This book has explanations that took me ages to search for on the web. This is something that I wish I had when I first started learning Korean. It is really well laid out and keeps me motivated because there is a structure to everything. If you don't have Korean classes in your area this is a really great alternative. I've heard great things about Japanese From Zero and was so excited when George announced he was working on Korean from Zero. There are plenty of places to practice your handwriting in the Hangul section as well as the rest of the book. One problem with most of the books that I own is that it is laid out just like a novel with no opportunity to practice. This book allows me to constantly feel engaged. The best part is that after the Hangul section, romanization is completely absent! Including romanization in a language learning book is the absolute WORST thing authors can do. Stop it! If you seriously want to learn a language then you need to learn the alphabet. Romanization is used as a crutch and will ultimately slow you down. If you're serious about learning Korean this is definitely the book for you - for that reason alone.⁰ of 0 people found the following review helpful. Great for beginners
By Pam
I consider myself an autodidact to an extent and this has been a valuable resource. I also have the Japanese From Zero and its excellent too. I like learning at my own pace and also having the online resources that come with the book as extra help. I couldn't recommend this enough for people learning on their own, or for students in a traditional classroom setting to be using this as an extra resource.

Korean From Zero! is a fun, innovative, and integrated approach to learning Korean created by professional interpreter and author of 6 text books, George Trombley, Korean linguist Reed Bullen, and native Korean speaker Sunhee Bong. Using up-to-date and easy-to-grasp grammar, Korean From Zero! is the perfect course for current students of Korean as well as absolute beginners. Features of the book: * Integrated Workbook with Answer Key * MP3 Audio * Online Support * Over 600 New Words and Expressions * Learn to Read and Write Hangul * Extensive Grammar * 90 Adjectives and Verbs Detailed * Bilingual Glossaries with Hangul and English ...and much more!

About the Author
George Trombley is a professional interpreter and author of the bestselling "Japanese From Zero!" book series. For "Korean From Zero!" book 1, George has teamed up with co-authors, Reed Bullen and Sunhee Bong to create a new approach to teaching Korean that is accessible for beginners, yet deep enough to help students of Korean at any level.
