**Borch : Laminated Ecuador Map by Borch (English Edition)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Laminated Ecuador Map by Borch (English Edition):

12 of 12 people found the following review helpful. This map is of poor quality and outdated. It will get you lost! By C. RANDI bought this map and thought it would be a good map for exploring Ecuador. Unfortunately it is very out of date and some of the roads it lists do not exist. Other roads are paved which the map shows as dirt roads. This makes it very difficult to plan a trip. I bought competing maps, the one from Freytag is very good and so is the ITMB. The other problem with this Borch Map is that the lamination is of very poor quality and disintegrated after a short time of use. 0 of 0 people found the following review helpful. Five Stars By cris mcbridethanks1 of 1 people found the following review helpful. I also like the fact that it is laminated. By Jane Goodman Maps of Ecuador are usually not very detailed, but this one was. I also like the fact that it is laminated. Not only will it hold up, but Dry Eraser markers work well on it, yet can be easily erased.

Folded road and travel map in color. Scale 1:1,000,000. Distinguishes roads ranging from expressways to country lanes. Legend includes paths, sights, museums, monuments, churches, chapels, antique/ancient sites, caves, beaches, shipwrecks, snorkeling/scuba diving sites, mines, golf courses, bus stations, gas stations, checkpoints, international airports, airfields, mountain passes, lodges, national parks, nature reserves, hotels, markets. Includes inset map of Galapagos Islands (1:1,300,000), Greater Quito (1:100,000), Quito (1:20,000), Guayaquil (1:18,000), Cuenca (1:17,000), Ingapirca (1:8,000). Climate charts show the average daily temperatures, humidity, hours of sunshine and precipitation for each month.

About the Author Borch, a cartographic publishing company from Germany, makes tough, long-lasting maps with non-toxic, environmentally responsible lamination material.
