**Borch : Laminated Phoenix Map by Borch (English Edition)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Laminated Phoenix Map by Borch (English Edition):

1 of 1 people found the following review helpful. The best map of Phoenix without a doubt. By Christopher Alvin Wilson Absolutely the best map of Phoenix. A detailed street map is unnecessary because the city streets are laid out intelligently in a wonderful grid pattern. The main roads are exactly every mile, north-south and east-west. This map shows just those main roads, which is all you need to navigate anywhere in the city. It folds wonderfully and gives an immediate birds-eye view of the city. 1 of 1 people found the following review helpful. Great Maps For New Phoenix Residents By Mr. Pierce Great map. Although my parents still get lost, don't use it, and seldom remember it's even in the glove box, till they call complaining they can't find something and I remind them, but whatever. 5 of 5 people found the following review helpful. Best map I've ever used! By Carol Chandler I purchased this map 2 years ago before moving to the Phoenix area. This well made laminated and easy to use map has been the best tool I've had to learn the area. It's even better than just my GPS because I can easily plot my way and view other areas of the city I wasn't familiar with but planning to visit.
