**Borch : Laminated Toronto Map by Borch (English Edition)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Laminated Toronto Map by Borch (English Edition):

1 of 1 people found the following review helpful. Good map for near north, east and west By Riverbook It covers more area than ITMB Toronto map Toronto Ontario South Travel Reference Map (International Travel Maps), but less clearly. The typefaces are very cluttered, with bold type for too many landmarks, so the street names in faint type are hard to find downtown. Elsewhere the street names and one-way arrows are easy to see but not as clear as the ITMB map. Scale is 1:17,500, better than CAA/AAA (1:37,000), but not as good as ITMB (1:12,500). This map has a regional inset from Buffalo to Hamilton and Oshawa at 1:500,000. Unique features which I did not find on any other Toronto map are an inset of Niagara Falls at 1:25,000, and indexes of public buildings and neighborhood names. It also has metric and temperature conversion factors, and monthly average sunshine, humidity, precipitation, high and low temperatures. It shows Toronto Transit and GO commuter trains, but not street cars. This map goes from Toronto Islands in Lake Ontario to Eglinton Ave in N (4 km N of Bloor St.), and from a few blocks past Lansdowne Ave in W to Coxwell Ave and Don Mills Rd in E. It omits the Port of Toronto and Leslie St. Spit; ITMB also omits them, though they are on the CAA/AAA map. This Borch map goes farther N and E than ITMB, but not as far W. If you are in the area covered by this Borch map and not by the ITMB map, this will be helpful. Both are plastic, so will hold up in rain and heavy use. 0 of 0 people found the following review helpful. This is a great series of maps By Carter Flagg This is a great series of maps, and the map of Toronto is no exception. Very detailed, easy to read and sturdy enough for lots of travel use. 0 of 0 people found the following review helpful. I recommend the city bus tour if anyone is going and ... By Rho Ann Hanes This was very helpful when touring Toronto. I recommend the city bus tour if anyone is going and taking this map. You really get a great overall view of Toronto. The Niagara Region on this map was very helpful also. It helped us make our way from Niagara-on-the-Lake up the QEW to Toronto.

Folded laminated street and travel map, in color. Scale 1:17,500. Legend includes sights, museums, theatres, monuments, churches, synagogues, beaches, golf courses, parking, international/regional airports, subway, cable car, underground pedestrian system, nature reserves, hotels, markets. Includes inset map of The Beaches (1:17,500), Toronto Islands (1:20,000), Toronto Region (1:500,000), Niagara Falls (1:25,000), Toronto Public Transport. Top 30 sights. Extensive index. Climate charts show the average daily temperatures, humidity, hours of sunshine and precipitation for each month.

About the Author Borch uses a patented lamination process to cross the folds of the map, making it easier to read and even easier to refold. The tough but non-toxic lamination material degrades to oxygen and water in a landfill environment. Before then, the map is practically indestructible in your backpack or suit coat pocket, and can even be written on temporarily with dry-erase markers.
