You will not get lost with this oneBy TruvorJust back from Venice and I agree with the rest of the reviewers here that this map is absolutely reliable. It's very detailed, easy to follow and got us through the maze of tiny streets and canals without any problems. The only time we actually got lost was when we started to feel too confident and walked on a hunch. A quick look at the map got us back on the straight path.0 of 0 people found the following review helpful. Five StarsBy MOMof3Great map1 of 1 people found the following review helpful. Great informational sourceBy Cath BThe map itself is very complete! Great informational source, but you'd better bring a magnifying glass with you for this map. It was impossible to read on the street - much too small print. I used it extensively in the hotel at night to plan the next day's walking plans, but was not able to use it at all while walking.
