A TreasureBy FrankThe original Petit Larousse Illustr, a marvelous illustrated dictionary, is in France sometimes referred to as the "la source de toutes les connaissances" (the source of all knowledge).The same sentiment can be applied to this fantastic coffee-table treatise on wine and what a treatise it is. It is a large book, beautifully printed on thick stock, countless glossy photographs, and 526 pages filled with insights and delights. The chapters cover the origins of wine; from wine to bottle; how to: identify a wine, buy wine, store wine, choose wine, serve wine, taste wine and all the wonderful associated etiquette. Ever wonder about the difference between chardonnay, Gewurztraminer, Verdejo and Viogniers grapes? Or been mystified by the appellation system or by the similar yet different Mdoc and St. Emilion classified growths? And why classified growths for Bordeaux's

Mdoc and St. Emilion appellations but not Pomerol? Then you explore the regions: the Old World, the Eastern Med and North Africa, the US and Canada, South America, Oz and NZ, and the Far East. All this is brought to life with beautiful pictures, maps, tables, and fascinating tidbits throughout. I cannot recommend it highly enough. Buy it for yourself. 0 of 0 people found the following review helpful. Great reference

By Taylor R Cleary The book is fantastic, but was delivered damaged. Not a big deal, just a bummer.
