DK : LEGO Star Wars Character Encyclopedia: Updated and Expanded before purchasing it in order to gauge whether or not it would be worth my time, and all praised LEGO Star Wars Character Encyclopedia: Updated and Expanded:

2 of 2 people found the following review helpful. hefty book on a specific topic at a good price By JK The book is comprehensive and includes a mini figure. Includes details about the figures - how they were distributed and variants of the same characters. A better deal than other sellers. The price and quick delivery made it a great decision to

purchase. Was not given this product for free or at a substantial discount to write a review. I appreciate reviewers admitting when they do that, but should abolish that policy. It is unethical and contributes to falsely positive ratings.² of 2 people found the following review helpful. The minifigure is nice but the book is not a complete list
By Plaidbear
This is a book for casual entertainment and is not an exhaustive reference. Do not expect that it will contain photos of every Star Wars minifig every released (up the pub date) not accurately compare them. The photos that are here are good but a little dark and shiny, and the text is more for entertainment than description. It would have been better to omit the minifigure, which occupies 30% of the books thickness, and create a true reference volume. However, I bet most folks buy it for the exclusive figure, which is worth the price of the book.¹ of 1 people found the following review helpful. A must get for any Lego star wars fan
By Hollowittz
If you are a Lego star wars fan then this is the book for you. It has pretty much all of the newer star wars minifigures. It shows the variants of each figure as well and tells you how many sets they can be found in or if they are exclusives. I really liked the figure that came with the book as well. I believe it was a snow version of Boba Fett. Along with each figure in the book it shows facts and other info about them such as if they are the only figure with a certain color or something. Overall this book is loaded with minifigures and for the \$13 I paid it is definitely worth it.

A New York Times bestseller and USA Today Best-Selling Book, this updated guide to the LEGO Star Wars universe comes with an exclusive Boba Fett minifigure and 72 new pages of minifigures and facts. StarWars.com says, "DK Publishing's fan-favorite tome on the minifigures of LEGO Star Wars is back with some Han Solo-worthy special modifications." LEGO Star Wars Character Encyclopedia: Updated and Expanded profiles more than 270 minifigures from the complete Star Wars saga. Discover incredible LEGO Star Wars facts, such as which minifigure is the rarest and which can be found in the most LEGO sets. LEGO Star Wars Character Encyclopedia: Updated and Expanded brings together the full collection of LEGO Star Wars minifigures into a fun and fact-filled book.
