These National Geographic Maps are a fancy reprint of maps from the US Forest Service which are cheaper and just as erroneous but not as pretty. The error in these maps comes from not being updated since 1983, so trails have changed routes and new trails have been added. Make sure to take a good GPS with you in conjunction with the maps.6 of 6 people found the following review helpful. These Maps Are GreatBy Shawn S.Be sure to check the edition ships you. According to the description this map is Publisher: Natl Geographic Society Maps; 2 edition (September 1, 2008). What sent me was an older 2006 edition. When it comes to this type of map for offroad trails etc, two years makes a huge difference...I have returned this map along with two other maps ordered at the same time that was also older editions (#782 and #783 - both should be 2004 editions and I received 2000 editions) needs to ensure they are sending the correct editions....0 of 0 people found the following review helpful. but its good supplementary informationBy TyThe level of detail made it hard to identify if we were on the right trails or not. I wouldn't use it as your only guide for trails in Linville, but its good supplementary information.

Waterproof Tear-Resistant Topographic MapExpertly researched and created in partnership with local land management agencies, National Geographic's Trails Illustrated map of Linville Gorge and Mount Mitchell provides an unparalleled tool for exploring these remarkable features within Pisgah National Forest. This map includes such key areas of interest as Linville Gorge Wilderness, Mount Mitchell State Park, Craggy Gardens, Grandfather Mountain Biosphere Reserve, Lake James State Park, and Brown Mountain OHV Area. Whether you're exploring on foot, or by horse, bike, or motorized vehicle, you'll find this map an invaluable resource for exploring the miles of mapped trails and roadways within the region, including the Appalachian National Scenic Trail, Mountains-to-Sea Trail, and Blue Ridge Parkway. An extensive chart with the location, mileage, rating, and designated use for dozens of trails and a handy activity guide will help you make the most of your visit. Recreation features are clearly marked, including campgrounds, points of interest, lookout towers, museums, and fishing and swimming areas. The map base includes contour lines and elevations for summits and passes. Every Trails Illustrated map is printed on "Backcountry Tough" waterproof, tear-resistant paper.
