the pen if needed, and can be reused. Came with a pen, but would be a better value if it came with two. All in all, does what you need it to do. 2 of 2 people found the following review helpful. Necessary GMAT Study Tool
By Samantha
This is a must for studying for the GMAT. Using this board is a lot different than using pen and paper. I was far better prepared for test day and more comfortable with the note board at the testing center. My only complaint is that the pen dried up before I finished my prep. The pen lasted through three practice CATs and some additional practice sessions. By the fourth CAT the pen was pretty useless and I had to resort to pen and paper instead. Otherwise, this is a great resource for GMAT prep and very similar to what you will use on test day. 0 of 0 people found the following review helpful. Must have for practice before the GMAT
By Therese Smith
I used this to do all my practice problems and practice tests. It wipes clean easily with a wet napkin or cloth. I think this went a long way in helping me get comfortable with test conditions. Writing with this type of pen and paper just doesn't feel normal to someone who isn't used to it. Because of that, this is a must have for all GMAT takers.

This unique product gets students comfortable with the GMAT's laminated scratch paper and special marker, a disconcerting feature of the actual test. This essential preparation tool helps you become comfortable with the laminated scratch paper and marker that you will be given when you take an Official GMAT. The Test Simulation Booklet consists of five laminated double-sided pages and is virtually identical to the booklet provided at official GMAT testing centers. A non-permanent marker of the same type used for the GMAT is included. You can erase your work using a damp paper towel.
