Joern Meissner, Manhattan Review : Manhattan Review GMAT Geometry Guide [5th Edition]: Turbocharge your Prep before purchasing it in order to gage whether or not it would be worth my time, and all praised Manhattan Review GMAT Geometry Guide [5th Edition]: Turbocharge your Prep:

1 of 1 people found the following review helpful. Great Practice for GMAT IRBy SitalI was looking to practice my Integrated Reasoning skills, and found this Manhattan Review guide. After using this manual, I started to think like the test masters themselves and enjoy solving each problem. I noticed that this is the approach that Manhattan Review effectively teaches in each of its manuals and it worked very well for me. The complicated concepts in the GMAT IR section are broken down into accessible practice problems and detailed explanations about strategy and approach to various question types. This book will save you on test day. It sure saved me!1 of 1 people found the following review helpful. The font is nice and largeBy Karen N. ChenFound many errors in the book; whether it be punctuation,

grammar, faulty printing, or just wrong answers. The font is nice and large, but I'm not training for kindergarten tests. Didn't feel like there was enough content. The explanations do not do their job explaining why we arrived at such an answer. Better spend your money on a better book for IR.0 of 0 people found the following review helpful. It would be perfect if more questions could be included in this bookBy CustomerIt gave me an idea how to deal with common questions in Integrated Reasoning part. It would be perfect if more questions could be included in this book.

About the Series: The Turbocharge Your GMAT Series is designed to be clear and comprehensive. Since its conception in 1999, it is considered the gold-standard in GMAT prep. The complete series is designed to be your best GMAT test prep companion as you navigate the road to a successful outcome. Manhattan Review has created these guides to lead you through the complexities of the examination and achieve your best possible result. As so many students before you have discovered, our books break down the different test sections in a careful, clear manner and zero in on exactly what you need to know to raise your score! About the Author: Professor Joern Meissner, the founder and chairman of Manhattan Review has over twenty-five years of teaching experience in undergraduate and graduate programs at prestigious business schools in the USA, UK and Germany. He created the original lectures, which are constantly updated by the Manhattan Review Team to reflect the evolving nature of GMAT, GRE, LSAT, SAT, and TOEFL test prep and private tutoring. Professor Meissner received his Ph.D. in Management Science from Graduate School of Business at Columbia University (Columbia Business School) in New York City and is a recognized authority in the area of Supply Chain Management (SCM), Dynamic Pricing and Revenue Management. Currently, he holds the position of Full Professor of Supply Chain Management and Pricing Strategy at Kuehne Logistics University in Hamburg, Germany. Professor Meissner is a passionate and enthusiastic teacher. He believes that grasping an idea is only half of the fun; conveying it to others makes it whole. At his previous position at Lancaster University Management School, he taught the MBA Core course in Operations Management and originated three new MBA Electives: Advanced Decision Models, Supply Chain Management, and Revenue Management. He has also lectured at the University of Hamburg, the Leipzig Graduate School of Management (HHL), and the University of Mannheim. Professor Meissner offers a variety of Executive Education courses aimed at business professionals, managers, leaders, and executives who strive for professional and personal growth. He frequently advises companies ranging from Fortune 500 companies to emerging start-ups on various issues related to his research expertise.
