THE Anza-Borrego mapBy Joel MellonHaving explored the vast majority of the Anza-Borrego desert over the last 15 years, nothing has given me more insight or direction than this map. Nothing even comes close to help find the many hidden treasures of the desert, except maybe my own GPS tracks...which aren't nearly as complete and were based on this very map.For all those recommending buying the book for the free map, I completely agree. You should indeed get the book. I however recommend getting this map separately as well if you plan on using it long term.A few weeks ago I found my book and map in the door of my truck warped from some form of water damage, and while the book is still completely functional, the map was ruined. Portions stuck together beyond repair. I set off to buy another copy of the book for the map, but decided to save the \$3 bucks and get exactly what I needed. I was pleasantly surprised to discover the received map is waterproof. I can

already tell the new map will last 10 times longer. So if you really just want the map, this is the one to get, if you want the best deal, get the book with map, if you're planning on heading out on more than a few occasions, get all three. Everyone in Anza should have some combination of these. 0 of 0 people found the following review helpful. Five Stars By DARIO ARECCOOKK 0 of 0 people found the following review helpful. This full-color recreation map has been completely updated to reflect new and expanded state park and national forest boundaries in the Anza-Borrego and Yuha desert regions. Shows roads, jeep routes, trails, campsites, historical routes, points of interest, streams, springs, and highway mileage markers.
