An artistic illustration of the Washington Monument, reflecting pool, and Jefferson Memorial in Washington D.C. The Washington Monument is a tall, white, obelisk-like structure in the background. In the foreground, there is a large, circular reflecting pool with a blue surface. To the right of the pool is the Jefferson Memorial, a circular building with a dome and columns. The scene is surrounded by green grass and pink flowers.

**MapEasy : MapEasy's Guidemap to Washington DC** before purchasing it in order to gage whether or not it would be worth my time, and all praised MapEasy's Guidemap to Washington DC:

5 of 5 people found the following review helpful. A unique and worthwhile mapBy Don MunsilThe two key innovations contained in this map are the restaurants with star rating and rough price (1-4 dollar signs), and the perspective drawings of major buildings. The drawings help you get oriented to landmarks, and I can see that it would be handy to be able to pull out the map and see the restaurants in the blocks around you so you can pick something good and in your price range.As a purely informational map for the other major stuff like museums and monuments, the Borch map has more data (except restaurants) and covers a wider area. The Streetwise map is a little more manageable when unfolded fully. Those two and this one are waterproof and durable. The smallest usable map is the PopOut, which isn't waterproof but is the easiest to fit in a pocket. This MapEasy map is actually probably the second most pocketable, as it's printed on a coated paper that isn't super stiff, and it folds fairly small.If finding restaurants quickly and easily is important to you, this is clearly the choice. And it's a very attractive map that is a pleasure to look at.0 of 0 people found the following review helpful. Five StarsBy ARigsIt's cool. artistic. Not sure why the price is what it is but I like it anyway.0 of 0 people found the following review helpful. nice map with landmark shapesBy markShows lots of landmarks and buildings with their shape which helps you identify where you are more easily. Little pricey but a great map and it is coated.
