Great bargain!0 of 0 people found the following review helpful. Great book!By K.ShannonI love this book! I had it when I was a teenager, when it first came out and have finally been able to replace my long since stolen book. It's a great reference, you can learn a lot about so many different mutants! Gives you a little background info, tells you about their powers/abilities. I am looking forward to

expanding my knowledge by picking up the many other Marvel encyclopedias and other great marvel books! I paid \$30 when I first bought mine, so for the price you pay on , you can't complain!0 of 0 people found the following review helpful. This book is really nice a hard cover and 2nd in its series very ...By zackThis book is really nice a hard cover and 2nd in its series very awesome includes BIOS on all the X Men characters, villains, and supporting characters also includes power grids for all the characters I'm a personal fan of the official handbooks of the Marvel Universe and this is a very similar book 5 out of 5

In 1963, a revolutionary new breed of hero emerged in the pages of X-MEN #1. These strange men and women each possessed a special "mutant" gene, granting them incredible powers and abilities. Since those early years, Marvel's mutants have exploded into a worldwide pop-culture phenomenon. From a single comic book, the X-Men went on to star in a diverse line of titles featuring mutants of every type imaginable, as well as a pair of top-rated animated series and two hit movies. Featuring more than 350 fully illustrated biographies, the X-MEN ENCYCLOPEDIA is a comprehensive guide to these world-famous Marvel Comics characters their mysterious origins, their incredible powers, their titanic struggles and their hidden tragedies.
