Mary E. Gerritsen, Ron Parsons : Masdevallias: Gems of the Orchid World before purchasing it in order to gage whether or not it would be worth my time, and all praised Masdevallias: Gems of the Orchid World:

0 of 0 people found the following review helpful. Grow the Kite OrchidBy David E. BloodIf you want to grow Masdevallias this is a good book to own.5 of 5 people found the following review helpful. Book is a gem!By CustomerBought this book right before the 2008 Pacific Orchid Exposition in San Francisco. The photos and text were great, but the tables at the end were even more useful for shopping at the Expo. The tables list the species and hybrids with their growing temperatures. If I can grow these plants in Nevada with 13% humidity, so can you!1 of 1 people found the following review helpful. A text all Masdevalia growers should haveBy RustyA very comprehensive review of the genus Masdevalia. Clearly written and easy to read. Very good cultural information. A reference that should be in any orchid library.

For the indoor plant hobbyist, intermediate orchid grower, or anyone simply "mad about masdevallias," this is a first complete reference to these collectible orchids. An inspiring tribute to their beauty and a practical guide to their care, the book offers detailed advice on all aspects of culture. For those enthusiasts who are up to a challenge, chapters on propagating, showing, and registering masdevallias are also included.

The experienced and knowledgeable coauthors (both are independent scholars) have provided the first comprehensive book on this genus of Central and South American orchids. Choice Mary Gerritsen and Ron Parsons give this beautiful genus its well-deserved moment in the sun. Pacific Horticulture The first complete reference of Masdevallia orchids ever published. Hobby Greenhouse Masdevallias is a rich and rewarding literary meal, delightful in taste and graced with good nutrition. . . . Do not let this jewel go unnoticed. Boox A jewel: an important contribution to orchid literature and an invaluable guide to anyone interested in the genus. To have all of this material in one volume is a treasure. I enthusiastically recommend it. Orchids This book could easily serve as a coffee table book to wow friends. Contributions to Botany
