PLOTS section is interesting since it is divided up with 'workplace plots' and 'family plots' and 'high stakes plots,' and more. Again, moves me to more thematic thinking. Since my writing is character-driven, my favorite part of the book are sections like '50 Past Traumas' and '50 Ways to Show a Character is a Good Person,' etc. There is even one section on how a good trait can be negative, and vice versa. With lots of plot books and character building books on my shelves - I really like this added resource since it is easy to navigate and brings a new angle to the subject and art of writing. Great job!

By Jessica Halbhuber  
This is an amazing resource book for writers of all kinds. It's relieving how a list can prompt a writer when you're stuck in a particularly troublesome draft. The Dialogue and Action section are definitely my favorite, and the Character Names lists are a LIFESAVER. The greatest thing about this book is that I can have it at my side when I am disconnected from the internet in an attempt to focus and write. Yes, I know there's hundreds of lists online I can search for - but when I am trying to write distraction free, this is the exact kind of resource I need at my side. It's not just for fiction writers, either! My husband is a Game Master for games like Dungeons Dragons and frequently steals it for inspiration to create campaigns and characters for his games!

By Jennifer Bradshaw  
I just received my copy a few days ago, and I'm in love with this. I consider myself pretty handy with varying my word choices in my writing, but in the revision stage of my first finished novel, I'm finding myself grabbing this book more and more often to find words and expressions that get my narrative closer to what I meant to say. Absolutely love it!
